CONTROL IN YOUR HAND

About

Iqbal Electrical & Automation is a reliable and experienced electrical & Instrumentation contracting company. specializing in comprehensive industrial and infrastructure solutions. With expertise in turnkey execution, installation, testing, and commissioning, we deliver high-quality electrical and Instrumentation service for Steel Plant, chemical plant, solar plants, Switchyard, Substation, WTP, ETP and various industrial applications.

Our core strength lies in executing complex projects involving transformers, HT/LT panels, DG sets, bus ducts, Cable Tray, Cable laying, Termination and Instrument Calibration with precision and efficiency. We also provide complete solutions for internal and external electrification, cable management systems, plant earthing, lighting setups, with ensuring safety and operational excellence at every stage.

Vision

**To become a trusted Contractor
in the electrical and
Instrumentation engineering
industry by delivering
innovative, reliable,
and sustainable solutions for the
industries and infrastructure.**

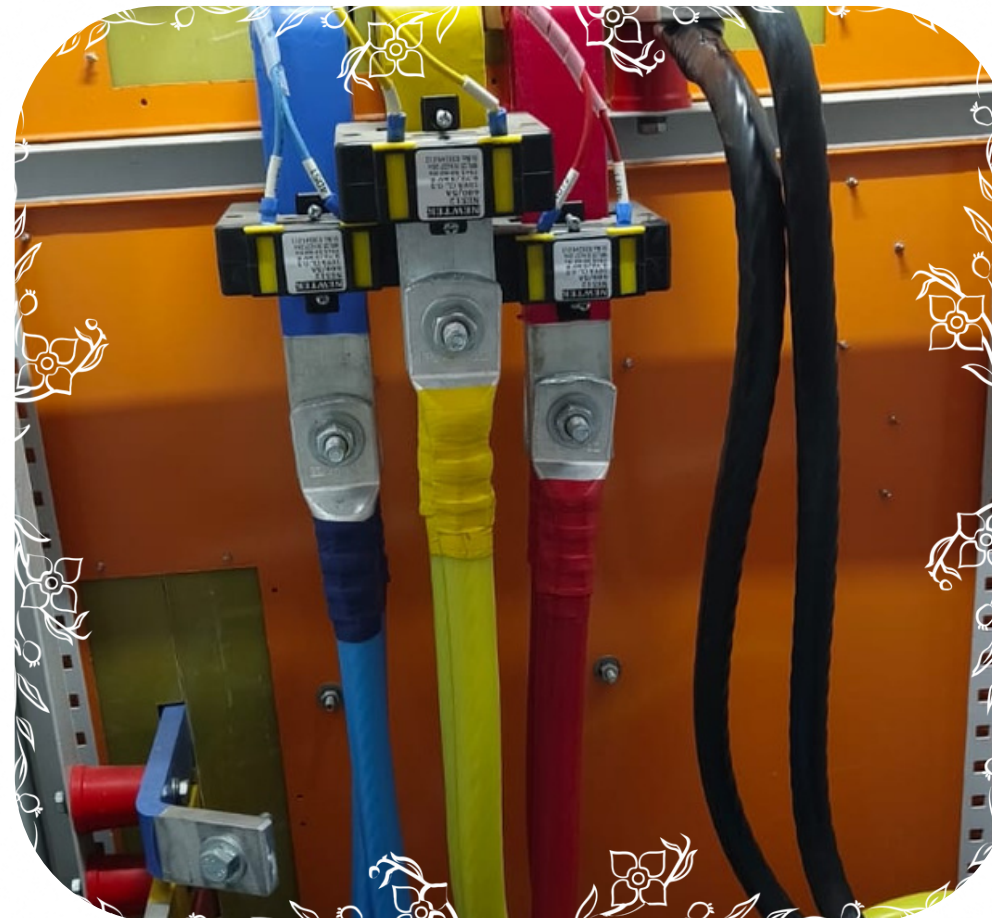

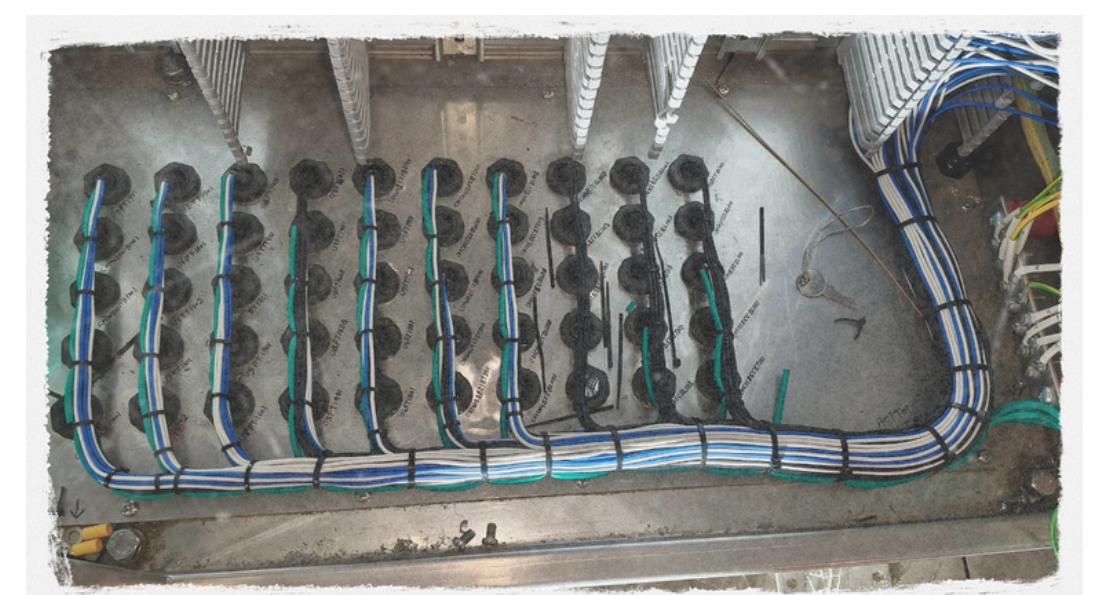

Mission

To provide high-quality electrical & Instrumentation services with a strong focus on safety and Quality with efficiency, and timely execution. We aim to build long-term client relationships through technical excellence, skilled workmanship, and a commitment.

Our Services

- 1. Turnkey Execution of Substation, Switchyard, Chemical Plant, Steel Plant and Solar Plant.**
- 2. Installation, Testing & Commissioning of Transformers, Instruments, Electrical and control Panels.**
- 3. Erection of Cable trays, DB's, Junction Boxes, MS/SS Steel Supports and Raceways.**
- 4. Calibration of field Instruments, Tubing, Airline and Impulse line.**
- 5. Installation of Industrial Lighting, Street Lighting, Path way Lighting and Cleanroom Lighting.**
- 6. Cable laying, Glanding, Termination, Meggiring and Loop checking.**
- 7. Installation of Earthing pits, earthing strip and lightning arrester.**
- 8. Installation of Module Mounting Structure, DC and AC Electrifications.**
- 9. Installation testing commissioning of Fire alarm system and Access Control.**
